GST Free

Common discounts explained

Membership and Technical Society

Members of Engineers Australia (excluding free students) who join one or more Technical Societies are entitled to a single discount of \$15.00 (GST free) off their Engineers Australia membership fee*.

If you are a member of one or more Technical Societies, the discount of \$15.00 has been applied to your membership renewal fee for 2019–20[^].

* The \$15.00 discount is applied to a Member's standard membership renewal fee. For example, a Chartered member at the grade of Engineering Associate would normally pay \$266.00, however with the discount applied would only be required to pay \$251.00. Discounts are automatically applied to Member's 2019–20 renewals fees.

[^] The discount is not applicable for Royal Aeronautical Society Australian Division (RaeS). For further information regarding this Technical Society, please contact them directly.

Concession and Technical Society

The concession rate of \$182.00 (GST free) is available to an Engineers Australia member in any grade or occupational category who:

- is over 55, has been a financial member continuously for five years, and has retired from paid, full-time work; or
- is unable to work by reason of unemployment, disability, ill health, pregnancy, parental obligation, participation in full-time postgraduate study directly related to their engineering competencies, temporary severe financial difficulty or other sufficient cause.

If you are a member of one or more Technical Societies, the discount of \$15.00 has been applied to the Concession rate of \$182.00, making your membership renewal fee for 2019–20 a total of \$167.00.

IPWEA Member

Members of Engineers Australia (excluding free students) who are also a member of the Institute of Public Works Engineering Australasia (IPWEA) are entitled to a single discount of \$15.00 (GST free) off their Engineers Australia membership fee*.

If you are a member of IPWEA, the discount of \$15.00 has been applied to your membership renewal fee for 2019–20.

* The \$15.00 discount is applied to a Member's standard membership renewal fee. For example, a Chartered member at the grade of Engineering Associate would normally pay \$266.00, however with the discount applied would only be required to pay \$251.00. Discounts are automatically applied to Member's 2019–20 renewals fees.

Conditions

Each Engineers Australia member is entitled to receive one discount only (Technical Society or IPWEA membership), calculated as the highest-value discount for which the member is eligible.

The Technical Society discount does not apply when the Technical Society membership fee is less than the discount amount.
