

CleverEVAC

from Clevertronics

Moving evacuation systems into the future

Clevertronics[®]

Emergency lighting innovation

Specialist Emergency Lighting company since 2001

Leading supplier of Emergency Lighting and Automatic Testing Systems

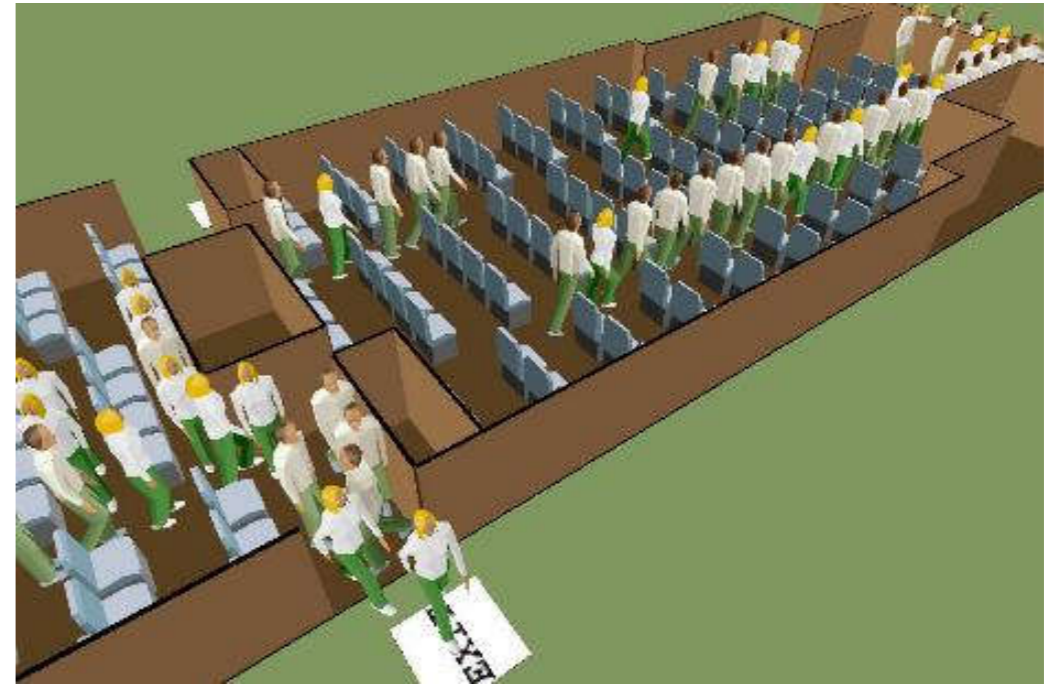

Pioneers of Lithium Battery Technology in Emergency Lighting

Zoneworks XT – Automatic Testing System assisting compliance

Focus on innovation has lead to... CleverEVAC

 **CleverEVAC**

Our Partners in Research.

UOG Research Findings:

EU funded GETAWAY PROJECT

Only **38%** registered reflective EXIT signs during an evacuation

When we do see and register signs they are almost **100%** effective.

Therefore it is critically important to ensure EXIT signs are as visible as possible in a forced evacuation

UOG Research Findings:

77% registered the Dynamic EXIT sign, with sequencing LEDs added to the reflective sign

EU funded GETAWAY PROJECT

CleverEVAC

The Future

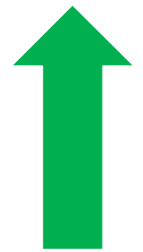

enhancing
EXIT signs

CleverEVAC

 **CleverEVAC**

Dynamic EXIT sign, enhanced with sequencing LEDs!

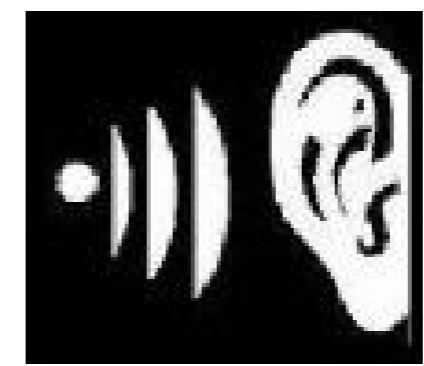

Increased
visual
affordance

Locatable Sound Technology – Hear the EXIT!
